ProMAP
LEAK DETECTOR

REDUCED CUSTOMER RETURNS

INCREASED MANUFACTURER INCOME

PRODUCT FEATURES:

100% Online Testing
Using cutting edge detection technology the ProMAP is capable of 100% package testing

High Sensitivity
The ProMAP Food Leak Detector is able to identify faulty products with pin hole sized leaks

Reduced Customer Returns
By removing faulty products prior to shipping to retail expensive customer returns can be reduced
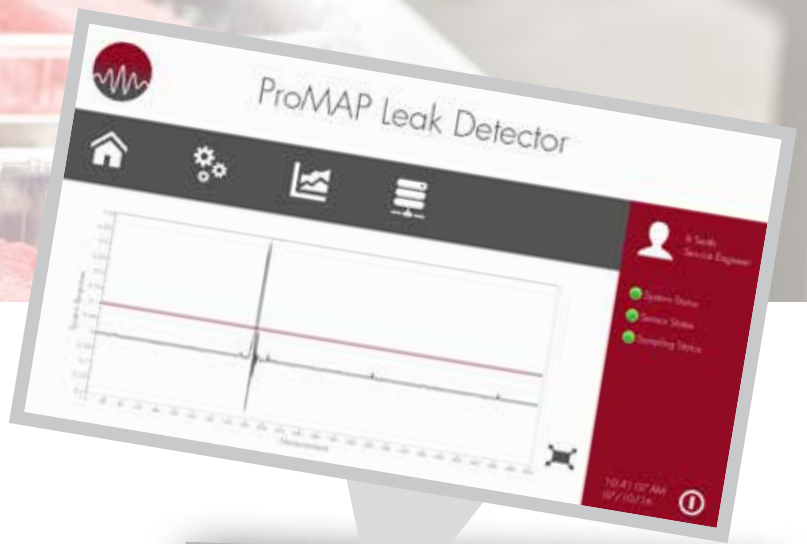

Reduction of Waste
By identifying problems in production quickly the amount of waste products can be reduced

PRODUCT SPECIFICATION:

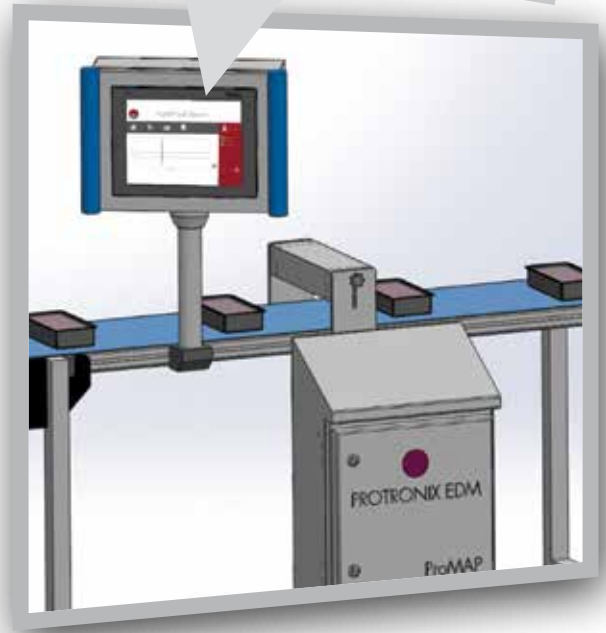

ProMAP Leak Detector

Performance

Sensitivity	Better than 0.5mm hole size
Speed	Up to 200 products per minute
Rejection	Air or Mechanical Rejector

Interface

Line Interface	Digital IO, PROFINET
HMI	High Resolution Touch screen HMI

General

Ambient Temperature	5-40C
Power Requirements	Single Phase 100-240V, 5A
Material	Hygienic Grade Stainless Steel
Calibration	System does not require Calibration
